

SAMMIE'S SECRET

Sammie's death causes her to ascend as an arbiter of creation, unleashing her true form Samiel, the Fallen Archeon. This act releases her from the shadow realm of Riverside, a place where the Dreamers (those who are more awake than the Fallen who live in our reality) are trapped until they ascend to a higher intellect.

Samiel unmakes reality, slaying the Creator and consuming all souls, intellects, and spirits in existence. The game is over and your actions have destroyed everything.
